

# World Of Life

In the World of Life Gallery, I can learn about the **human body** and how to keep it healthy.

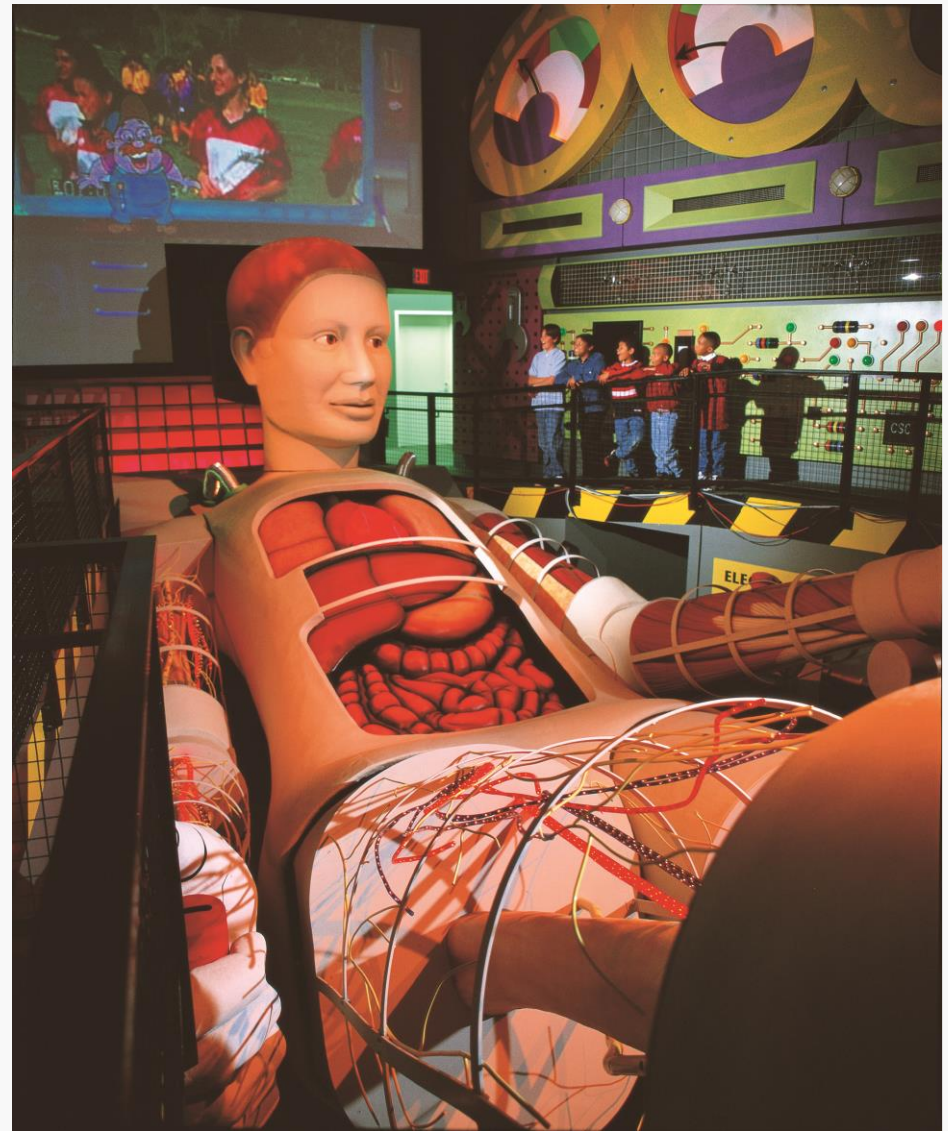

I can learn about how different parts of **my body** work, like my heart and lungs, and how I need them to live.

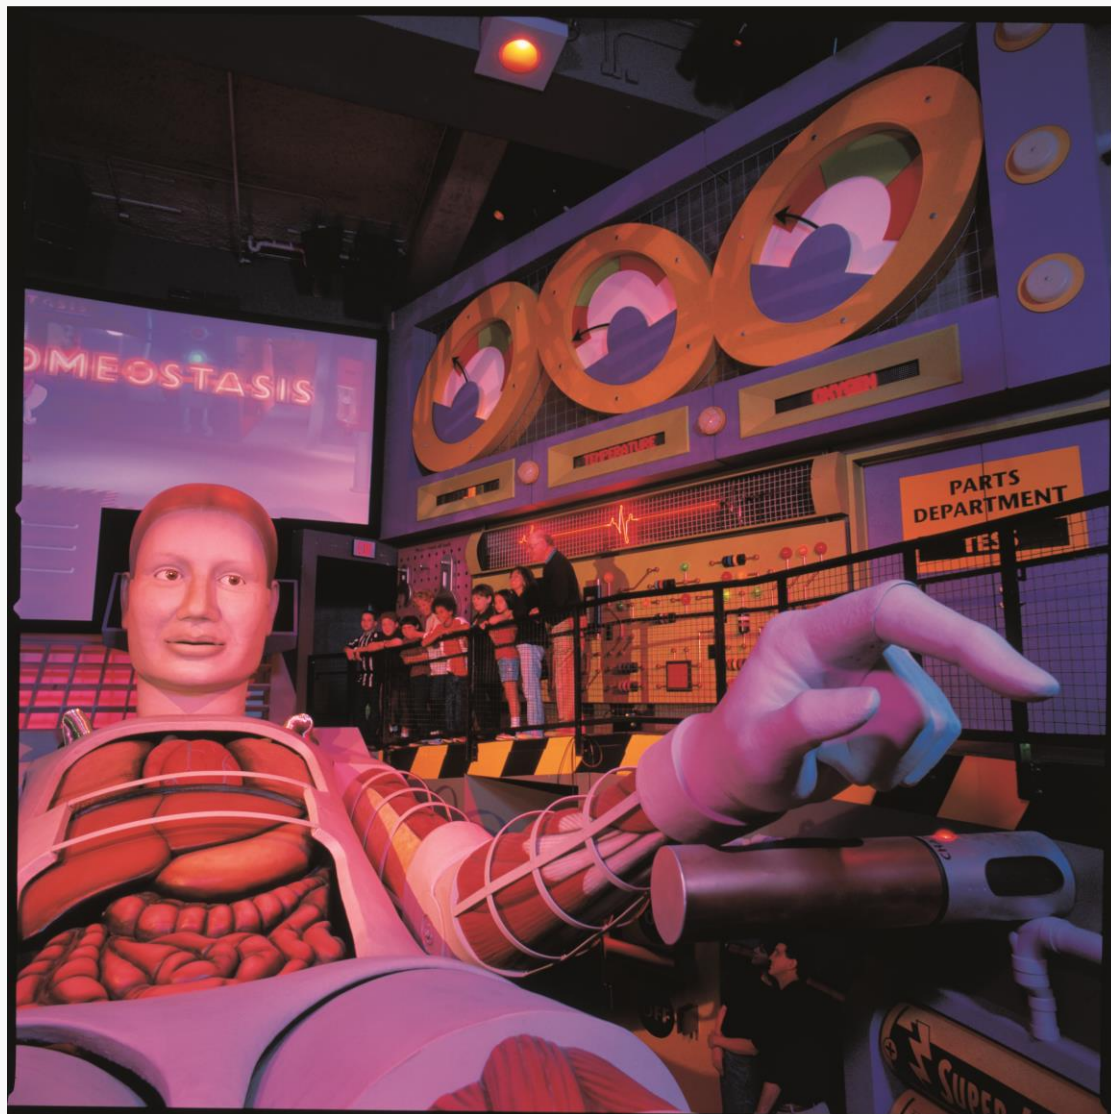

I can also learn about how **other living things**, like animals and insects, need the same things I do to stay alive.

In the Body Works theater, I can see a **GIANT** mechanical woman with arms and legs that move.  
“**Mechanical**” means she is a machine, not a real person.

Even though she is not a real person, Tess can help me learn about the **human body**.

If I am uncomfortable, we can leave the theater at any time.
